RE: Polychlorinated Biphenyl Risk-Based Cleanup and Disposal Request for Property Located on North 9th Street and at the intersection of 12th Street and Vine in Festus, Missouri

Dear Mr. Hansard:

The U.S. Environmental Protection Agency Region 7 has reviewed the Risk-Based Cleanup and Disposal Request (workplan) dated July 27, 2016, regarding Polychlorinated Biphenyl remedial activities at the PSC Metals Site. The workplan request was for consolidation, capping, remediation, confirmation sampling and filing of a restrictive covenant in accordance with 40 CFR 761.61(c) approval requirements. The EPA hereby approves the workplan with the following conditions:

1. The workplan field activities shall be initiated within 60 days from the date of this letter.
2. A final report documenting the cleanup and disposal activities shall be sent to the EPA within 60 days of completion of field activities.
3. A draft environmental covenant shall be submitted to the EPA for review and approval within 30 days of completion of field activities.
4. A cap inspection checklist shall be submitted to the EPA for review and approval within 30 days of completion of field activities.

All documents shall be sent to Mike Dandurand, 11201 Renner Boulevard, Lenexa, Kansas 66219. If you have any questions, please contact Mike Dandurand, of my staff, by phone at (913) 551-7504 or by email at dandurand.michael@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Rebecca Weber".
